

4 Courses

**Software Design as an Element of the Software Development Lifecycle**

**Software Design as an Abstraction**

**Software Design Methods and Tools**

**Software Design Threats and Mitigations**

May 4, 2024

**Garret Wassermann**

has successfully completed the online, non-credit Specialization

## **Secure Software Design**

This specialization is for those with limited workplace experience in software development to obtain the background, perspective and skills to recognize important security aspects of software they are expected to design. Mindsets and attitudes of successful designers--and hackers--are presented as well as project successes and failures

*Albert E. Glock, Jr.*

Albert Glock  
Instructor  
University of Colorado  
Springs - College of  
Engineering and  
Applied Science

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
